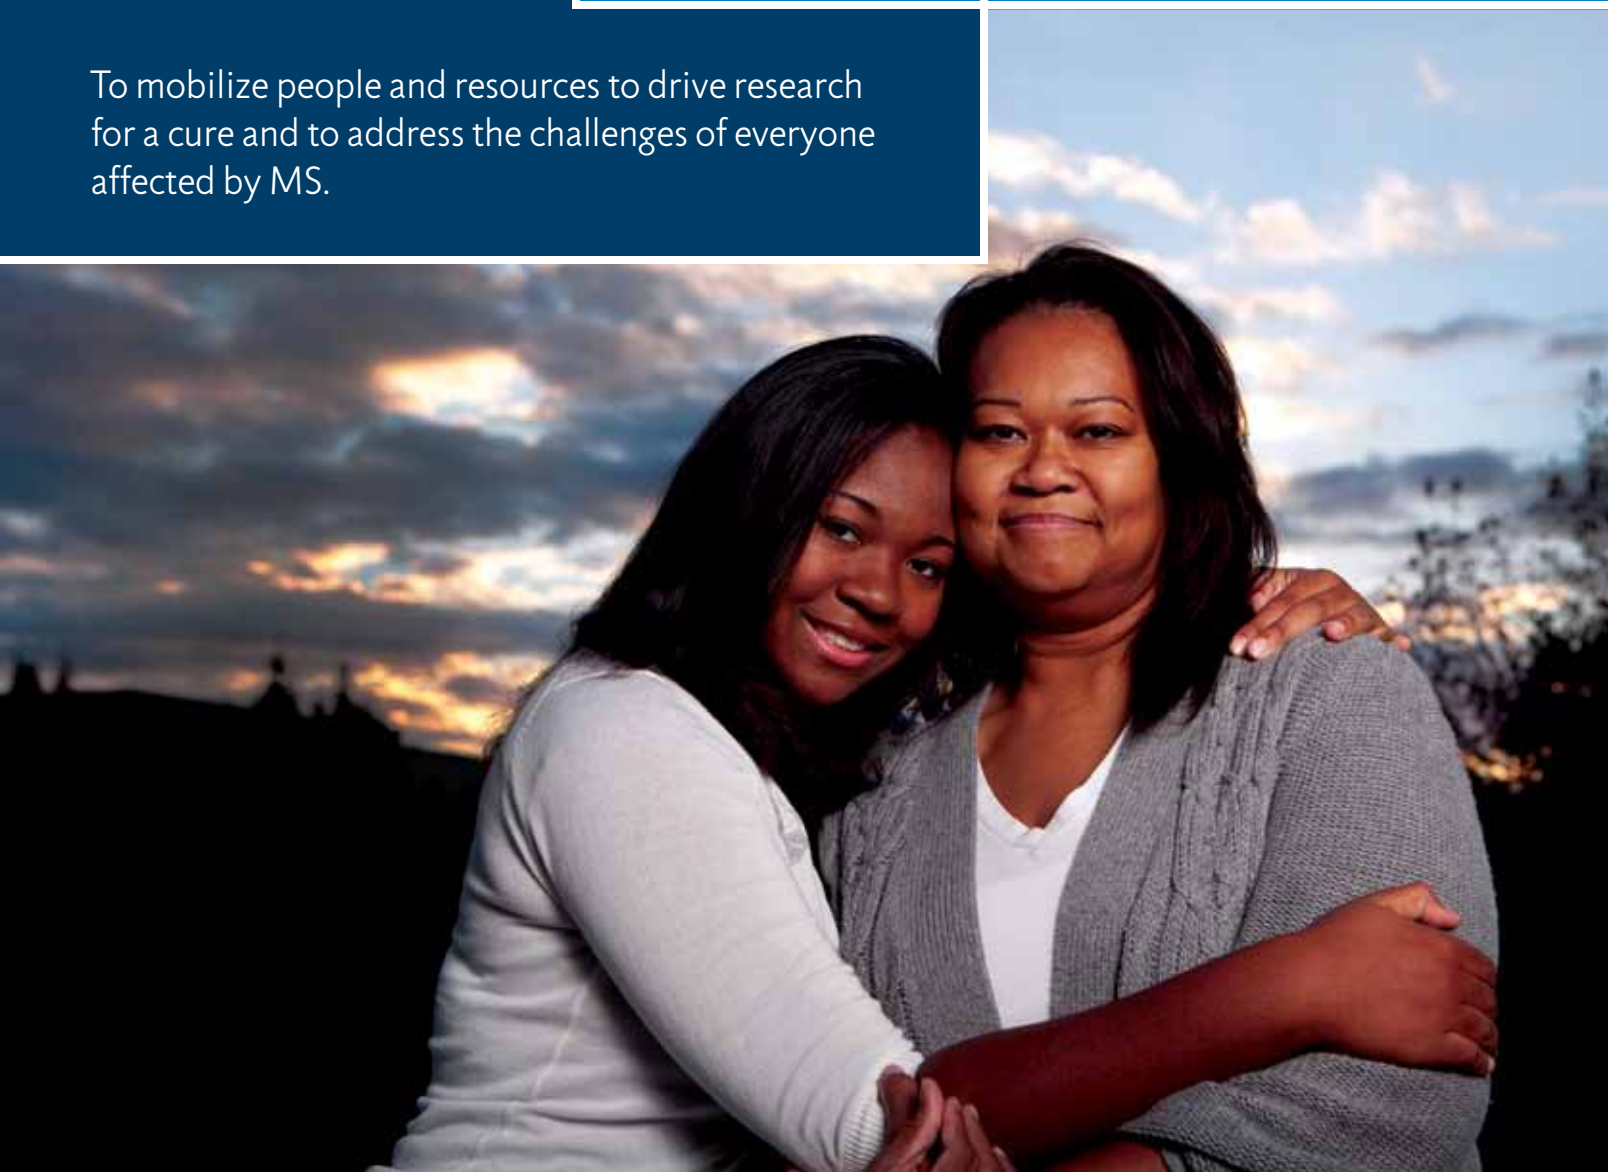
2012 ANNUAL REPORT

Fulfilling The Promise

To mobilize people and resources to drive research for a cure and to address the challenges of everyone affected by MS.



LETTER FROM THE PRESIDENT

Dear Friends,

We are pleased to share that 2012 was a strong year filled with many achievements and the promise of moving closer to a time when MS no longer exists. Although the Chapter faced profound challenges, ranging from extreme heat and unprecedented wildfires in Colorado during the height of our event fundraising season, to a slow economic recovery, we remained committed and focused.

Within this report you will see firsthand the substantive work of the Chapter and the resulting successes on every front. To support our research investments and comprehensive services we set ambitious revenue goals. With your support, we beat all odds and exceeded expectations. Walk MS Denver surpassed $1 million in fundraising for the first time making it the fourth largest single walk site in the country; Bike MS Wyoming hit record participation and fundraising milestones; and new opportunities were created to grow support through our MuckFest MS event and the establishment of the Independent Spirit Fund.

With approval of the second oral therapy – Aubagio – there are now nine FDA- approved therapies with more expected in the next 12-18 months. This is truly an exciting time in research and we are proud of the Chapter's million dollar investment to support the Society's promising research.

Throughout the year the Chapter continued to serve as a beacon of hope for 100,000 people affected by MS in Colorado and Wyoming. Thank you for your steadfast support and join us in 2013 as we promise to once again shine the light on MS, we commit to providing stellar education and resources needed to navigate the diverse challenges presented by MS, and generate the support that will take us ever closer to our ultimate goal – a world free of MS!

Sincerely,

Carrie H. Nolan
Chapter President

Brandt Wilkins
Board Chair

Thank you to our Board of Trustees who gave 1,258 hours of service.

YEAR IN REVIEW

2012 RESEARCH MILESTONES

Second Oral MS Therapy Approved

The U.S. Food and Drug Administration approved Aubagio (teriflunomide), once-daily pills to treat relapsing forms of MS. Aubagio is the second oral disease-modifying therapy approved for the treatment of multiple sclerosis. There are now nine approved disease-modifying therapies for MS.

The International Collaborative on Progressive MS

Despite significant progress in the development of treatments for people with relapsing forms of multiple sclerosis, there are few treatment options for people with progressive forms of MS. In 2012, the International Collaborative on Progressive MS was formed with the MS Societies of the US, Canada, Italy, Netherlands and the UK. The mission of the Collaborative is to expedite the development of effective disease-modifying and symptom-management therapies for progressive forms of MS.

$1 Million + For Research

With the collaboration of research efforts around the world today, this is an extremely hopeful time for anyone who is diagnosed with MS. To continue this momentum, the Chapter contributed more than $1 million to research. These funds supported the Society's $44 million investment in 325 promising research projects, eight of which are located in Colorado.

We are a driving force of MS research and treatment.

We will raise $250 million and devote 25% of total Society revenue to MS research by the end of 2015.

2012 FUNDRAISING MILESTONES

Walk MS Denver

Participants at Walk MS Denver made history as they surpassed the $1 million fundraising mark for the first time. The Chapter held 15 Walk MS events throughout Colorado and Wyoming, where more than 14,000 supporters stepped up and raised $1.7 million! The Casper Walk MS also hit a fundraising milestone – growing from $5,000 in 2010 to nearly $50,000 in 2012.

Bike MS

The catastrophic wildfires along Colorado's Front Range did not deter participant amount in the Newmont Bike MS, presented by Great-West Life, which raised a record $3.6 million, the ride's largest to date. Bike MS Colorado was filled to capacity for the fourth straight year as 3,000 cyclists rode in the two day, 150-mile ride supported by 600 outstanding volunteers. Wyoming's Bike MS fielded the highest number of registrants in the ride's history. The 283 registered cyclists enjoyed beautiful scenery and camaraderie while raising $219,000.

CHAPTER RESOURCES PROVIDED VALUABLE SUPPORT

Acting on its mission, the Chapter provided a wide range of crucial resources to help address the needs of the 100,000 people affected by MS in Colorado and Wyoming.

ADVOCACY

More than 3,000 people serve as Chapter MS Activists. These individuals worked on the issue of securing medical exemptions from summer tiered-energy rates, both in Fort Collins and communities served by Xcel Energy. In Wyoming, activists tackled the issue of increased vehicle valuation, which results in increased taxes and fees due to the addition of medical adaptive equipment.

DIRECT SERVICES

753 people received one-to-one assistance with MS experts who assisted with navigation of complex health systems and connected people to community resources such as home and personal care, home and vehicle modifications, disability issues and symptom management support.

EDUCATION PROGRAMS

1,450 people attended 64 programs that provided information on topics including symptom management, nutrition, exercise, self-care, research updates and aspects of care giving.

FINANCIAL ASSISTANCE

$200,000 in direct assistance was provided to 341 people living with MS to meet urgent needs such as medical equipment, ramps, cooling units, home or auto modifications, utility assistance, home health care, respite care and transportation. For every dollar spent another 3 dollars was leveraged through community partnerships.

INFORMATION AND REFERRAL

The National MS Call Center, staffed by master level professionals, responded to 1,583 inquiries ranging from questions about living with MS, insurance, financial assistance, Social Security and physician referrals.

LONG TERM CARE

Collaboration continued with North Star and Rowan Communities, which have MS skilled care units specializing in the needs and lifestyle interests of younger people living with MS. The Chapter also trained a group of MS Ambassador volunteers who provided staff training about MS to additional skilled nursing and assisted living facilities, and home care agencies.

PUBLIC EDUCATION

More than 20,000 people learned more about MS through educational and awareness presentations at special events, service clubs and health fairs.

SELF-HELP AND SUPPORT GROUPS

38 groups met regularly throughout Colorado and Wyoming serving more than 500 people.

Independent Spirit Fund Established

Chapter patrons Brandt Wilkins and David Alexander established this new fund to enhance resources that ensure people living with MS maintain mobility, social and day-to-day living independence.

To support the Independent Spirit Fund, donate online at www.nationalMSsociety.org/ISF or for more information contact Kristin Gibbs at 303-698-5430

MS BY THE NUMBERS

- *Colorado and Wyoming prevalence: 13,000 people*
- *Annual Economic Cost in U.S.: $28 billion*
- *More than 2.1 million people are affected by MS worldwide.*

MS FACTS

- *Most people are diagnosed with MS between the ages of 20 and 50*
- *At least two to three times more women than men are diagnosed with MS*
- *MS is the most common neurological disease leading to disability in young adults*

WHAT IS MULTIPLE SCLEROSIS?

Multiple sclerosis (MS) is a disease that affects the central nervous system by disrupting the flow of information from the brain to the body.

It's an elusive disease with no known cause and no known cure. Symptoms vary from person to person depending on where the central nervous system is affected.
