Mission Possible

Our Mission Possible Club members are special event participants who raise $1 for each person living with MS in our 105-county Chapter area. More than 5,500 individuals have been diagnosed with MS in eastern Kansas and western Missouri. We thank our Mission Possible Club for bringing us closer to a world free of multiple sclerosis.

Each one of us can do something about MS

The National MS Society is a collective of passionate individuals who want to do something about MS now. Together, we can change the future and bring an end to this disease. You can join the movement and help move us toward a world free of MS.

Volunteer: Every year, hundreds of individuals become integral partners in our movement. They contribute valuable resources of time, skills, knowledge and leadership. You can join us by helping with special events, programs, administration, advocacy and community outreach.

Participate: In April 2008, Walk MS events will take place in 19 communities across the area. Walks include a 3-mile accessible route and an extended 6-mile route complete with rest stops, snacks and encouragement from volunteers. Walk MS: Kansas City Challenge is a three-day, 50-mile experience that offers the philanthropic challenge of raising $1,500 for the MS Society. Bike MS is a two-day, bicycling fundraiser along scenic routes in Missouri and Kansas that helps find a cure for and the cause of multiple sclerosis. Join us and be a major part of our movement to a cure.

Donate: Make a gift and make a difference. You can donate to an event participant, a specific research project or in honor or memory of a loved one. We have a variety of creative ways to give including our vehicle donation program, the Missouri income tax check box campaign and many planned giving opportunities.

Educate: Help spread the mission of the National MS Society. Join our Action Alert Network to influence public policy. Attend educational programs and self help group meetings. Let your friends, family members and neighbors know that we exist to support and serve the MS community.

A Call to Action: Studies show that early and ongoing treatment with an FDA-approved therapy can reduce future disease activity and improve quality of life for many people with multiple sclerosis. Talk to your health care professional and contact the National MS Society at www.nationalmssociety.org or 1-800-344-4867 to learn about ways to help manage multiple sclerosis and about current research that may one day reveal a cure.
