

**National
Multiple Sclerosis
Society**

Instructions for Submission: Pilot Grant Applications National Multiple Sclerosis Society 2018

INTRODUCTION

Please read these instructions and follow them carefully. Applications that are incomplete, exceed the page limits, or use undersized or condensed type **will not be considered for funding by the Society.**

- The grants management system called **MSGrants** is used for preparation and submission of research proposals to the Society. MSGrants can be found at <https://nmss.fluxx.io>
- Compatible browsers include **Chrome, Firefox, and Safari**. Internet Explorer is **not** fully compatible and should be avoided. Check with your IT department for information on installing one of these browsers if you do not already have one.
- Passwords for accessing the site never expire and a new password will not be needed for each cycle.
- Submission of proposals is exclusively electronic for **all** parts of the proposal, including institutional approval, and no paper copies of any part of the proposal will be sent to the Society.
- In place of the former coversheet, institutional approval by your organization will be made electronically using the same online system.
- The application process itself consists of two parts, a short pre-application and the full application. Pre-applications must be submitted no later than two days before the full application deadline.
- The full application, including electronic Institutional Approval, must be submitted before the deadline.

Details concerning the grants management system and application process can be found in these instructions and on the system's Web site itself.

GETTING STARTED

If you have already been issued a password for MSGrants, you can skip the next two sections.

Registration for New Users

Go to <https://nmss.fluxx.io> and once you are at the login page, click on **Register Now**. Complete the online registration form and submit your registration by clicking on the words **Submit Request**. This will submit your request for access to the site to the Research Programs staff of the Society. The staff will review your registration information to verify that you are qualified to apply for funding from the Society. If approved, you will receive an automated e-mail message containing your login credentials within **two business days**.

Resetting Passwords

Go to <https://nmss.fluxx.io> and once you are at the login page, click on **Reset or Create Password**. At the next screen, enter the e-mail address that you used to register and click on **Submit**. The system will send you an e-mail with a link to reset your password. If the system does not recognize your e-mail address, you will need to register as if you are a new user.

Your password should contain at least one of the following:

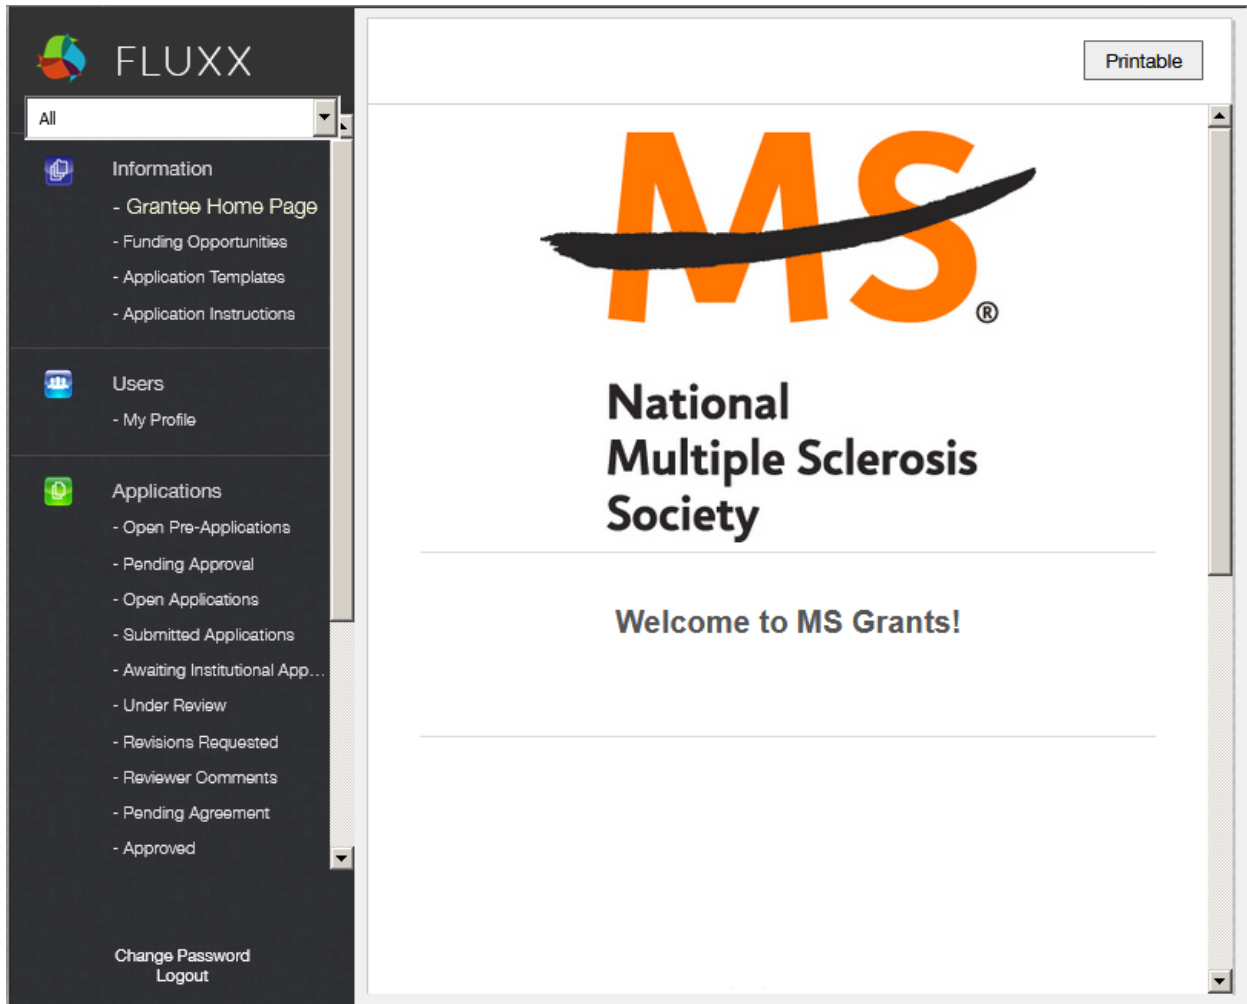

- Uppercase letter (A through Z)
- Lowercase letter (a through z)
- Number (0 through 9)

A Word about Passwords

Once you have obtained a user id and password, go to <https://nmss.fluxx.io> and log in. Once you log in, you will be able to see which funding opportunities are active along with the deadlines for each. You will also be able to begin the preparation of your pre-application. In the system your password never expires and you will not need to obtain a new password in order to apply for other funding programs or subsequent cycles. You will be using MSGrants for a variety of purposes in addition to preparation and submission of proposals. For example, progress reports will be prepared and submitted through MSGrants as well and you will be able to view proposals that you have prepared on the system. It is important that you not share your password with others and it is not possible for two different people to apply for funding opportunities using a single password.

NAVIGATING MSGrants

When you log on you will see the grantee portal (illustrated below). A description of the main parts of the grantee portal follows below.

Funding Opportunities

Click on this item to see the funding opportunities that are currently available and the application deadlines. Click on **Apply Now** to start a pre-application.

Application Templates

Click on this item to download any of several documents that you are likely to use in preparing your application. These include the following:

- A PDF file showing the keywords that you will also find in a drop down list in the application. This PDF file is provided to make it easier for you to see the entire list before making your selections.
- A Word template to use for preparing the narrative for pilot grant applications
- A Word template to use for preparing biographical sketches
- An example of a lay summary

Application Instructions

Instructions for all of the current funding opportunities

My Profile

Clicking on **My Profile** will open your individual record. Once open, click on **Edit** to modify your profile. Please make sure all contact information is current.

Open Pre-Applications

As your application moves through the various steps in the system, it will be listed under different sections of the grantee portal. Once you have started a pre-application and saved it, you can retrieve the application to continue to work on it by clicking on the **Open Pre-Applications** link.

Pending Approval

Once you have submitted a pre-application you can find it by clicking on the **Pending Approval** section. Pre-applications listed in this section cannot be edited.

Open Full Applications

Once your pre-application has been approved to move on to a full application, you can access the full application forms here. Full applications that you have worked on and saved can also be found here. These applications can be edited.

Submitted Applications

Full applications that have been submitted can be found here. Applications in this section cannot be edited.

Awaiting Institutional Approval

Full applications that are pending institutional approval for final submission can be found here.

Under Review

Full applications that have been screened by Society staff and advanced to the peer review process can be found here. Applications in this section cannot be edited.

Revisions Requested

Both pre-applications and full applications that have been sent back to the applicant for changes requested by Society staff can be found here. Applications in this section can be edited.

Pending Agreement

Full applications that have been approved for funding but which still require some additional processing and/or submission of documents can be found here.

Approved

Full applications that have been approved for funding and which require no further processing can be found here.

Not Recommend

Applications that have previously been reviewed but were not recommended for funding are listed here.

Copying a Previously Declined Submission

If you would like to resubmit a previously declined submission, the application can be found in the Not Recommended section. Click on the application you wish to resubmit, and Click Copy. A new pre-application will be created. You can then make any changes you'd like at that point and/or Submit. When the pre-application is approved, the full application will have all of the previous information not including the narrative or budget. These will need to be added to the application.

THE PRE-APPLICATION

For each funding opportunity, there is a pre-application that must be completed and submitted to the Society before the applicant can prepare a full application. The pre-application is reviewed by a member of the Research Programs staff to determine that 1) the applicant and organization are eligible to receive Pilot funding and 2) the research idea is consistent with the Society's mission and research strategies and the nature of the specific funding opportunity. Once the pre-application is approved you will receive an automated message from the system and you will be able to begin preparation of the full application. In some cases, Society staff may send the pre-application back to you for clarification or changes before final approval. In order to make sure that all components of the final application, including institutional approval can be completed by the final deadline, we recommend that applicants submit the pre-application for review by the National MS Society Research Program at least 3 business days or more in advance of the final deadline.

Please Note: The Society has enacted a deadline for pre-applications. The pre-application must be submitted **2 days (Monday) prior to the deadline.**

How to Complete the Pre-Application

Once you are logged in, click on **Application Information** to see a list of available funding opportunities, along with information on the application deadlines. Find the funding opportunity to which you wish to apply and click on **Apply Now**. This will open the pre-application. Enter a title for your pre-application (this can be changed later) and complete the **Eligibility Quiz**. The Eligibility quiz will establish whether you are eligible to apply for that funding opportunity. If you pass all of the eligibility criteria, the rest of the pre-application will open and you can begin to complete this step. If you fail one or more of the eligibility criteria, you will not be able to prepare and submit a pre-application for that program.

- **Organization:** If you have only one organizational affiliation, the **Organization** field will be pre-populated. If you are affiliated with more than one organization, select the organization that will be the applicant organization from the drop-down list. If you have an incorrect affiliation or have moved please contact the Society to change your affiliation.
- **Principal Investigator:** In the **Principal Investigator** field, select your name from the drop-down list.
- **Primary Signatory:** This is the individual who "signs off" on the application on behalf of your institution, thereby allowing the application to be submitted. If you do not know who this is, just leave it blank and you will have another opportunity to complete this field later.
- **Project Details:** In the **Project Details** text box, insert a brief (500 words or less) description of your proposed project. You can type this in online, or prepare it off line and copy and paste the text into the text box.
- **Project Zip Code:** In the **Project Zip Code** field enter the zip code (U.S. applications) where the work will actually be done. If more than one site is going

to be used, this should be the Zip code of the primary or lead site.

- **Estimate of Amount Requested:** In the **Estimate of Amount Requested** field, enter your best estimate of the total cost of your proposed project. The maximum budget for the Pilot program is \$55,000 for U.S. institutions, inclusive of \$50,000 in direct costs plus 10% (\$5,000) indirect costs. For non-U.S institutions the maximum is \$50,000 since indirect costs are only allowed on U.S. based projects. This figure will allow Society staff to gauge the overall amount of funding that is likely to be requested during a given cycle. This figure will not be used to evaluate whether or not to approve your pre-application and you will be able to change this figure later.
- Once you have completed all sections of the pre-application, click on **Save** to save your work. At this point you can log out and return later to revise your pre-application by pressing the **Edit** button, or you can click on **Submit** to submit your pre-application to Society staff for approval. Saving your application does not send it to Society staff. You must click on **Submit** in order for it to be considered for approval.
- Once you press **Submit**, you will no longer be able to make changes, although you will be able to see your pre-application.

When you submit the pre-application, it will automatically be sent to the appropriate program officer at the Society for review.

THE FULL APPLICATION

Once your pre-application has been approved you can log in and begin to prepare the full application. At the grantee portal, click on the **Open Applications** link and then on **Edit** to begin working on the full application. You can work on the various parts of your full application in any order you want, save your work, and return to continue working as many times as you want.

Navigation Tips

There are two types of sections in the application: 1) sections in which you select options or fill in text boxes; and 2) sections in which you upload one or more documents. It is a good idea to click on **Save** as you complete each part of the application.

Black triangles ► indicate the sections of the application that will open when you click on the triangle. The default of the application is for each section to be collapsed. You should open each section and complete all of the required components in the section.

The section components can either be drop-down lists, text boxes, or sections where you need to upload one or more files. After you complete a given section, clicking on the triangle again closes that section.

Sections that require one or more files to be uploaded will have a white plus sign on a green background. Click on the plus sign to open the upload dialogue. Click on **Add Files** to browse for the file that you want to upload. Click on the black triangle to indicate the type of document you are uploading. Click on **Start Upload** to upload the file.

You can complete the sections in any order you wish but all sections must be completed before you can submit.

Project Information

This section includes basic information about the proposed project. To assist you in selecting the **Keywords** that are a required part of this section, a list of available keywords can be downloaded from the Grantee Home Page.

Institutional Official

- In this section you will indicate the institutional official who will be the Institutional Signatory for submission of your full application. This is the individual who “signs off” on the application on behalf of your institution, thereby allowing the application to be submitted. You indicate who this is by selecting the individual’s name from the drop-down list of appropriate individuals associated with your institution. The primary signatory must be registered with the system in order for you to make this selection from the drop-down list. If the primary signatory is not registered, this individual must go to the MSGrants log on page <https://nmss.fluxx.io> and register.
- Your application is not actually submitted to the Society until the Institutional Signatory has logged on to the system and authorized submission of the application. The Institutional Signatory must be registered with the system and must be the individual designated by you in the Institutional Official section of the application. Once you have submitted your application, a system message will be sent via e-mail to the Institutional Signatory stating that an application is pending authorization. The Institutional Signatory must then log on to the system, open the application, and complete the authorization. This must be completed prior to 5:00 PM Eastern Time on the date of the deadline.
- In this section you will also confirm the location of the project and the name of the principal investigator.
- Fill out the information for your Financial Officer. This information will be used if your application is awarded.

Human Subjects and/or Vertebrate Animals

This section includes information on protection of human subjects and animals. If any documents concerning these assurances need to be included, such as IRB approval memos, they must be included along with any letters uploaded in PDF format as part of the application. (See next two sections)

IRB Approval File (if applicable)

If your proposed research involves human subjects, you must provide a signed and dated approval letter from the Institutional Review Board or equivalent appropriate committee of your institution as part of the single PDF file uploaded in the Letters section. If approval is pending or will be submitted if funded, indicate that the project has been submitted to the committee for review in the Human Subjects section. Payment for a successful application will not begin until such signed and dated approval is received, reviewed and approved by the Society.

Institutional Animal Care File

If you plan research with experimental animals, you must provide certification that the institution complies with all federal, state and local regulations and with the standards established by the Animal Welfare Acts and the documents entitled "Principles for Use

of Animals" and "Guide for the Care and Use of Laboratory Animals", available from the Office of Laboratory Animal Welfare at <http://grants.nih.gov/grants/olaw/olaw.htm>. If approval has been granted, a copy of the signed and dated approval letter must be submitted as part of the single PDF file uploaded in the Letters. If approval is pending or will be submitted if funded, indicate that the project has been submitted to the committee for review in the Vertebrate Animals section. Payment for a successful application will not begin until such signed and dated approval is received, reviewed and approved by the Society.

Letters Submitted with Application

This is the section where letters submitted with your application are uploaded. Letters must be converted to PDF format and uploaded as a single PDF file. Paper copies will not be accepted and will be discarded if they are received by the Society.

- **Collaborative Arrangements** - Letters of collaboration/support from all individuals whose cooperation is necessary for the proposed research should be included as part of the single PDF file uploaded in the Letters section.

Lay Language Summary of Proposed Project

The lay language summary should describe your proposed research in language suitable for a news release to the lay public. This is important information for the society, and we please ask that applicants not repurpose a scientific abstract for the lay summary. The lay summary is broken into several sections. In each section you are required to address a different element of your proposed project. Please read these instructions carefully and ensure that you address each element. If your project is funded, Society staff may make editorial changes to the summary to enhance its clarity.

Scientific Summary of Proposed Project

This is equivalent to a scientific abstract, and this summary should capture in condensed form the rationale, specific aims, methods, anticipated outcomes, and how the proposed research addresses one or more of the National MS Society's [five Research Priority Areas](#).

Project Staff

Since the PI's information is already captured elsewhere, it does not need to be entered here. However other key professional personnel should be listed. This will assist the Society in more effectively tracking all of the researchers and clinicians who participate in Society-funded projects. Please note that for Pilot Grants, postdoctoral fellows and graduate students may assist on the project, but may not request salary support.

Biographical Sketches

NIH style is preferred but a biographical sketch template is available for downloading on the Application Templates section in case you need one. Biographical sketches are required for all professional personnel working on the project, including the applicant. All biographical sketches must be uploaded in PDF format.

Other Support

The Society requires detailed information concerning current and pending support for personnel listed on the application. This information is useful in evaluating any potential overlap with the current application and in identifying potential conflicts of interest. This should be uploaded as a single PDF document using the template provided.

Proposal Narrative

The proposal narrative is the heart of the application and the main document that reviewers will evaluate. For Pilot Grants, the main component of the proposal is a **scientific narrative which is a maximum of 2 pages**. A template in Microsoft Word format is provided on the Grantee Home page for downloading. This template parallels NIH format. Specifications are 2 pages single spaced (not including references), 11 point or larger font, and a minimum of half-inch margins on all sides. Applications that manipulate fonts, margins or spacing to circumvent the 2 page limit will not be reviewed. Applicants who are resubmitting an application should include a brief (about half a page) cover letter detailing their response to the reviewers' comments from the prior submission. This cover letter does not count against the 2 page limit. The proposal narrative contains the following components:

Cover letter (for resubmissions only)

- For a revised, resubmitted application a cover letter is required. In a revised application, there must be changes in the content of the application. This page must summarize the additions, deletions, and changes and may include responses to the criticisms and issues raised by the reviewers of your previous application. Please do not indicate changes by colored text or shading in the scientific narrative. **PAGE LIMIT: approximately one-half page.**

Scientific narrative

- Include all text related to the research plan in this section. For pilot grants, preliminary data is not specifically required. However, if you choose to include preliminary data, any figures or tables must be included within the 2 pages of text. Supplemental or additional materials are not permitted and will not be evaluated. Within the 2-page scientific narrative, applicants should include specific aims, background, preliminary results (if applicable), experimental design, and methods. In addition, the narrative must include how the proposed research addresses at least one of the National MS Society's five Research Priority Areas. **PAGE LIMIT: two pages.**

References

- Include the appropriate literature citations after the 2-page scientific narrative. To facilitate the review of your application, give the full title and bibliographic reference for all work cited in your application. Please note that the 2-page limit for the narrative does not include the references, i.e., the references can go beyond the 2-page limit. **PAGE LIMIT: none.**

Facilities Available (Optional)

- Applicants may describe the facilities available for the conduct of the proposed research, and list major items of equipment that are available for use in the project. This document can be placed after the references and does not count against the page limit. **PAGE LIMIT: one page.**

Once the narrative is completed, all components should be collated into a single document and must be converted to PDF format and uploaded in this section.

Budget

The Society requires a detailed budget for the proposed project. The budget module is divided into sections such as "Personnel," "Equipment," "Supplies," etc. To add a line item to the budget, click on the green "+" button to open the form. The system will calculate the total budget per year after each line item has been added to the application. Please note, it is recommended that you save the application after each budget section has been completed to expedite the calculation process. The budget module automatically calculates direct costs, indirect costs, and totals. Please note that you cannot edit the indirect cost section. This section is calculated by the system based on your entries and is not editable by applicants. Of note, salaries for postdoctoral fellow and graduate students or travel to conferences are **not** permitted for pilot grants.

Note: Please review the [NMSS Policies and Procedures](#) for information regarding General Categories of Expenditures.

Sub-Contractor Budget

The online system also includes the ability to calculate subcontract budgets and integrate them into the main budget. Like the overall budget, any subcontractor budgets should provide budget detail for all years of the project. The Society will pay up to 10% indirect costs on subcontracts to US institutions, with the usual exclusions for equipment and patient costs. The subcontractor budget should include indirect costs, if applicable. However in the main project budget, only the direct costs for the subcontract should be included since the Society will not pay indirect costs twice on the subcontract amount.

Budget Justification

The budget justification can be typed directly into the text box online or copy and pasted into the text box from a word processor.

Sub-Contractor Budget Justification

The budget justification can be typed directly into the text box online or copy and pasted into the text box from a word processor.

Materials Submitted with Application

Additional materials, including figures, tables, methods or similar text **are not permitted for pilot grants**. All scientific information must be contained within the 2-page scientific narrative:

DUAL SUBMISSION TO OTHER AGENCIES

You are encouraged to apply to other appropriate agencies, in addition to the National Multiple Sclerosis Society. If you apply to another agency for support of the same or similar project, be sure to acknowledge the application(s) in the **Other Support** section and where indicated on the **Project Information Section** of the Apply Online system.

SUBMISSION OF YOUR PROPOSAL

Once you have completed the preparation of your proposal, there are several options.

Edit

If you have not as yet submitted your proposal, you can click on the **Edit** button in order to open your proposal for further editing.

Printable

You can click on the **Printable** button in order to see your proposal as a single document which can be printed or outputted as a PDF file using standard browser commands.

Submit

If you have completed preparation of your application, you can submit it.

Save

If you are not ready to submit your application, you can save it to work on it later.

Withdraw (application)

If you do not wish to submit your proposal or continue working on it, you can **Withdraw** it. Once you withdraw an application, it cannot be recovered and so consider this option carefully. This option is generally used when an investigator has inadvertently started a duplicate application.

The Submission Process

Once you are satisfied with your proposal and all sections are marked as “complete,” you can click on the “Submit” button. This will lock your proposal for further editing and move it to the **Authorization** step.

Cover Page

In our system there is no cover page, cover sheet, or signature page. In place of the former cover page, the system uses an online **Authorization** step that is completed by the Primary Signatory.

Authorization (Institutional Approval)

Your application is not actually submitted to the Society until the Primary Signatory has logged on to the system and approved submission of the application. The Primary Signatory must be registered with the system and must be the individual designated by you in the **Institutional Official** section of the application. Once you have submitted your application, a system message will be sent via e-mail to the Institutional Signatory stating that an application is pending authorization. The Institutional Signatory must then log on to the system, open the application, and complete the authorization. This ***must*** be completed ***prior*** to 5:00 PM Eastern Time on the date of the deadline.

CHECKLIST

To assist you in verifying that you have completed all steps in the application process, here is a checklist that you can use once you are ready to submit your proposal.

- Have you completed all required items in the **Project Information** section?
- Have you completed all required items in the **Institutional Official** section?
- Have you completed all required items in the **Human Subjects and/or Vertebrate Animals** section?
- If applicable, have you uploaded all of the **Letters** of support/collaboration/approval?
- Have you completed the **Lay Language Summary**?
- Have you completed the **Scientific Summary**?
- Have you listed all professional staff in the **Project Staff** section?
- Have you uploaded **Biographical Sketches** for all professional staff on the project?
- Have you listed **Other Support** for all professional staff on the project?
- Have you uploaded your completed **Proposal Narrative**?
- Have you completed the **Budget** for all years of the proposed project?
- Have you completed the **Budget Justification** for all years of the proposed project?
- If applicable, have you ~~complete~~completed the **Subcontract Budget(s)** for any subcontracts?
- If applicable, have you uploaded a **Budget Justification** for any subcontracts?
- Has the Primary Signatory of your organization **Authorized** submission of your application?

HELP IS AVAILABLE

Basic questions about word processing functions such as copying and pasting, pagination, etc. and questions concerning PDF files should be referred to your organization's IT department or a colleague.

If you have any questions concerning the online application process such as using the online screens, file uploads and downloads; questions about National Multiple Sclerosis Society policy or the content of your proposal, please contact one of the following members of the Research Programs team:
