Instructions for Submission: Research Grant Applications  
National Multiple Sclerosis Society

Please read these instructions and follow them carefully.

Applications that are incomplete exceed the page limitations or use undersize or condensed type will not be considered for funding by the Society. The full application, including electronic institutional approval, must be submitted before the deadline.

The grants management system called MSGGrants has been implemented for preparation and submission of research proposals to the Society. MSGGrants can be found at https://nmss.fluxx.io

Please note:
- Compatible browsers include Chrome, Firefox, and Safari. Internet Explorer is not fully compatible and should be avoided. Check with your IT department for information on installing one of these browsers if you do not already have one.
- Passwords for accessing the site never expire and a new password will not be needed for each cycle.
- Submission of proposals is exclusively electronic for all parts of the proposal, including institutional approval and appendix materials, and no paper copies of any part of the proposal will be accepted by the Society.

Details concerning the grants management system and application process can be found in these instructions and on the MSGGrants website itself, as well as details concerning the content for your application.
1. **GETTING STARTED**

1.1. **Registration**

If you have never submitted a proposal to the National Multiple Sclerosis Society, then you will need to register and be approved for access to MSGrants. Go to [https://nmss.fluxx.io](https://nmss.fluxx.io) and once you are at the login page, click on **Register Now**. Complete the online registration form and submit your registration by clicking on the words **Submit Request**. This will submit your request for access to the site to the Research Programs staff of the Society. The staff will review your registration information to verify that you are qualified to apply for funding from the Society. If approved, you will receive an automated e-mail message containing your login credentials within **two business days**.

1.2. **Password Reset**

If you need to reset your password, please click on **Reset or Create Password** on the main login page for MSGrants at [https://nmss.fluxx.io](https://nmss.fluxx.io). At the next screen, enter the e-mail address that you used to register and click on **Submit**. The system will send you an e-mail with a link to reset your password. If the system does not recognize your e-mail address, you may need to register as if you are a new user.

Your password should contain at least one of each of the following:

- Uppercase letter (A through Z)
- Lowercase letter (a through z)
- Number (0 through 9)

1.3. **A Word about Passwords**

It is important that you not share your password. Your password is linked directly to your account as a Principle Investigator and will provide access to all information used in your submissions to the National Multiple Sclerosis Society. When logged in, you will be able to use MSGrants for a variety of purposes in addition to preparation and submission of proposals, such as submission of your progress reports. Your password for MSGrants never expires and you will not need to obtain a new password to apply for other funding programs or subsequent cycles.
2. NAVIGATING MSGrants

When you log on you will see the grantee portal (illustrated below). A description of the main parts of the grantee portal, accessed through the left-hand navigation menu, follows.

![MSGrants Portal Screenshot](image)

2.1. Information

**Funding Opportunities**—The funding opportunities that are currently available and the application deadlines. Click on **Apply Now** to start a pre-application.

**Application Templates**—Various documents available for download that you may need/use in preparing your application. These include the following:
- Templates available to use for preparing specific funding opportunity narratives
- A Word template to use for preparing biographical sketches
- An example of a lay summary
- A PDF file showing the keywords that you will also find in a dropdown list on applicable applications. This PDF file is provided to make it easier for you to see the entire list before making your selections.

**Application Instructions**—Instructions for all current funding opportunities
2.2. **Users**

**My Profile**—Your individual user profile information is outlined in this section. Please make sure all contact information is current and edit this information to update your profile.

2.3. **Applications**

As your application moves through the various steps in the system, it will be listed under different sections of the grantee portal.

**Open Pre-Applications**—All new applications and pre-applications that have been started AND saved, but not yet submitted. These pre-applications can be edited.

**Pending Approval**—Pre-applications that have been submitted for initial review by the Society are found in this section. These pre-applications cannot be edited.

**Open Full Applications**—Approved pre-applications become full applications and can be accessed in this section. Full applications can be edited and saved for continued revision at a later time.

**Submitted Applications**—Full applications that have been submitted can be found here. These applications in this section cannot be edited.

**Awaiting Institutional Approval**—Full applications that are pending institutional approval for final submission can be found here.

**Under Review**—Applications that have been screened by Society staff and advanced to the peer review process can be found here. Applications in this section cannot be edited.

**Revisions Requested**—Both pre-applications and full applications that have been sent back to the applicant for changes requested by Society staff can be found here. Applications in this section can be edited.

**Pending Agreement**—Applications that have been approved for funding, but which still require some additional processing and/or submission of documents can be found here.

**Approved**—Active grants (applications that have been approved for funding and which require no further processing) can be found here.

**Not Recommend**—Applications that have previously been reviewed but were not recommended for funding.
3. THE PRE-APPLICATION

For each funding opportunity, there is a pre-application that must be completed and submitted to the Society before the applicant can prepare a full application. The pre-application is reviewed by a member of the staff to determine that 1) the applicant and organization are eligible to receive funding and 2) the research idea is consistent with the Society’s mission and research strategies and the nature of the specific funding opportunity. The pre-application is reviewed by a member of the Research Programs staff to ensure that the research idea is consistent with the Society’s mission and research strategies and the nature of the specific funding opportunity.

***Please Note: In order to make sure that all components of the final application, including institutional approval can be completed by the final deadline, the Society has enacted a deadline for pre-applications. The pre-application must be submitted 1 week prior to the deadline.

3.1. How to Complete the Pre-Application

Once you are logged in, click on Funding Opportunities to see a list of funding opportunities, along with information on which opportunities are currently open and the application deadlines. Find the Research Grants opportunity and click on Apply Now to open the pre-application form.

- **Title:** Enter a title for your pre-application (this can be changed later)
- **Eligibility Quiz:** The Eligibility quiz will establish whether you are eligible to apply for that funding opportunity. If you pass all of the eligibility criteria, the rest of the pre-application will open and you can complete this step. If you fail one or more of the eligibility criteria, you will not be able to prepare and submit a pre-application for this program.
- **Organization:** If you have only one organizational affiliation, the Organization field will be pre-populated. If you are affiliated with more than one organization, select the organization that will be the applicant organization from the drop-down list. If you have an incorrect affiliation or have moved please contact the Society to change your affiliation.
- **Principal Investigator:** In the Principal Investigator field, select your name from the drop-down list.
- **Institutional or Primary Signatory:** This is the individual who “signs off” on the application on behalf of your institution, thereby allowing the application to be submitted. If you do not know who this is, leave it blank, and you will be able to edit or input correct information before you submit your full application.
- **Project Details:** In the Project Details text box, insert a brief (500 words or less) description of your proposed project. You can type this in online, or prepare it off line and copy and paste the text into the text box.
- **Project Zip Code:** In the Project Zip Code field enter the zip code (U.S. applications) where the work will actually be done. If more than one site is going to be used, this should be the Zip code of the primary or lead site.
- **Estimate of Amount Requested:** In the Estimate of Amount Requested field, enter your best estimate of the total cost of your proposed project, including 10% indirect
costs. Indirect costs are only allowed on U.S. based projects. This figure will allow Society staff to gauge the overall amount of funding that is likely to be requested during a given cycle. This figure will not be used to evaluate whether or not to approve your pre-application and you will be able to change this figure later.

Once you have completed all sections of the pre-application, click on Save to save your work. At this point you can log out and return later to revise your pre-application by pressing the Edit button, or you can click on Submit to submit your pre-application to Society staff for approval. Saving your application does not send it to Society staff. You must click on Submit for it to be considered for approval. Once you press Submit, you will no longer be able to make changes, although you will be able to see your pre-application.

When you submit the pre-application, it will automatically be sent to the appropriate program officer at the Society for review.

3.2. Notification of pre-application approval

Once the pre-application is approved you will receive an automated message from the system and you will be able to begin preparation of the full application. In some cases, Society staff may send the pre-application back to you for clarification or changes before final approval.
4. **THE FULL APPLICATION**

Once your pre-application has been approved you can log in and begin to prepare the full application. In the grantee portal, click on the Open Applications link and then on Edit to begin working on the full application. You can work on the various parts of your full application in any order, save your work, and return later to continue working as many times as you want, but all sections must be completed before you submit.

4.1. **Navigation Tips**

**Editing**—Any time before you submit your proposal, you can click on the Edit button to open your proposal for further editing.

**Save your work**—It is a good idea to Save as you complete each part of the application.

**Expanding sections**—Black triangles ➤ indicate the sections of the application that will expand to open when you click on the triangle. The default of the application is for each section to be collapsed so only section headers are visible. You should open each section and complete all of the required components in the section.

**Types of input sections**—The section components can either be drop-down lists, text boxes, or sections where you need to upload one or more files. After you complete a given section, clicking on the triangle again closes that section. **NOTE:** Any charts, diagrams and figures MUST be submitted as a PDF attachment.

**Uploading documents**—Sections that require one or more files to be uploaded will have a white plus sign on a green background. Click on the plus sign to open the upload dialogue. Click on Add Files to browse for the file that you want to upload. Click on the black triangle to indicate the type of document you are uploading. Click on Start Upload to upload the file and exit out of the dialogue box to return to your application. To change the document type or delete the file that you uploaded, position your cursor anywhere to the right of the name of the file and click on the pencil (edit) or the minus sign (delete) that appear. Please note, paper copies will not be accepted and will be discarded if they are received by the Society.

**Printing**—You can click on the Printable button to obtain a PDF file of your application.

**Submitting**—If you have completed your application, you can use the Submit button to advance it to the next stage.

**Withdrawing an application**—If you do not wish to submit your proposal or continue working on it, you can use the Withdraw button. Once you withdraw an application, it will...
not be considered. This option is generally used when an investigator has inadvertently started a duplicate application.

4.2. **Required Fields**

This section is a list of required field for the application. There is no action to take within this section, it is simply a reminder for the application of the fields that must be completed before the application can be submitted.

4.3. **Project Information**

This section includes basic information about the proposed project. To assist you in selecting the **Keywords** that are a required part of this section, a list of available keywords can be downloaded from the Grantee Home Page.

4.4. **Institutional Official**

In this section you will indicate the institutional official who will be the Institutional Signatory for submission of your full application. This is the individual who “signs off” on the application on behalf of your institution, thereby allowing the application to be submitted. You indicate who this is by selecting the individual’s name from the drop-down list of appropriate individuals associated with your institution. The primary signatory must be registered with the system in order for you to make this selection from the drop-down list. If the primary signatory is not registered, this individual must go to the MSGrants log on page https://nmss.fluxx.io and register.

In this section you will also confirm the location of the project; the name of the principal investigator, and the information for your Financial Officer. This information will be used if your application is awarded.

4.5. **Human Subjects and/or Vertebrate Animals**

This section includes information on protection of human subjects and animals. If any documents concerning these assurances need to be included, such as IRB approval memos, they must be included along with any letters uploaded in PDF format as part of the application. (See next two sections)

**IRB Approval File (if applicable)**—If your proposed research involves human subjects, you must provide a signed and dated approval letter from the Institutional Review Board or equivalent appropriate committee of your institution as part of the single PDF file uploaded in the Letters section. If approval is pending, indicate that the project has been submitted to the committee for review in the Human Subjects section. Payment for a successful application will not begin until such signed and dated approval is received, reviewed and approved by the Society.

**Institutional Animal Care File**—If you plan research with experimental animals, you must provide certification that the institution complies with all federal, state and local regulations and with the standards established by the Animal Welfare Acts and the
documents entitled "Principles for Use of Animals" and "Guide for the Care and Use of Laboratory Animals", available from the Office of Laboratory Animal Welfare at http://grants.nih.gov/grants/olaw/olaw.htm. If approval has been granted, a copy of the signed and dated approval letter must be submitted as part of the single PDF file uploaded in the Letters. If approval is pending, indicate that the project has been submitted to the committee for review in the Vertebrate Animals section. Payment for a successful application will not begin until such signed and dated approval is received, reviewed and approved by the Society.

4.6. **Letters Submitted with Application**

This is the section where letters submitted with your application are uploaded, such as letters of collaboration or support from any individuals whose cooperation is necessary for the proposed research. Letters must be converted to PDF format and uploaded as a single PDF file.

4.7. **Lay Language Summary of Proposed Project**

The lay language summary should describe your proposed research in language suitable for a news release to the lay public. This is important information for the society, and we please ask that applicants do not repurpose a scientific abstract for the lay summary. The lay summary is broken into several sections. In each section you are required to address a different element of your proposed project. Please read these instructions carefully and ensure that you address each element. If your project is funded, Society staff may make editorial changes to the summary to enhance its clarity.

4.8. **Scientific Summary of Proposed Project**

This is equivalent to a scientific abstract, and this summary should capture in condensed form the rationale, specific aims, methods, anticipated outcomes, and how the proposed research addresses the National MS Society's five Research Priority Areas.

4.9. **Project Staff**

Since the PI's information is already captured elsewhere, it does not need to be entered here. However other key professional personnel should be listed. This will assist the Society in more effectively tracking all of the researchers and clinicians who participate in Society-funded projects.

**Biographical Sketches**—NIH style is preferred but a biographical sketch template is available for downloading on the Application Templates section in case you need one. Biographical sketches are required for all professional personnel working on the project, including the applicant. All biographical sketches must be uploaded in PDF format.

4.10. **Other Support**

The Society requires detailed information concerning current and pending support for personnel listed on the application. This information is useful in evaluating any potential
overlap with the current application and in identifying potential conflicts of interest. This should be uploaded as a single PDF document using the template provided.

4.11. Proposal Narrative

The proposal narrative is the heart of the application. Details concerning the preparation of the proposal narrative appear below. A template in Microsoft Word format is provided on the Grantee Home page for downloading. This template parallels NIH format. Specifications are 12 pages single spaced (not including references, and introductions for resubmissions), 11 point or larger font, and half-inch margins on all sides. Once the narrative is completed, it must be converted to PDF format and uploaded in this section. Applicants who have a narrative prepared for a NIH application can use this as a basis if it conforms to the above dimensions, but you must add a section on how the proposed project addresses the National MS Society’s Research Priorities (details below). Applicants who are resubmitting an application must include up to 2 pages detailing their response to the reviewers’ comments from the prior submission (these 2 pages are in addition to the 12 pages of the narrative itself).

Organizing Your Narrative—To facilitate the review of your application, it is strongly recommended that you organize the discussion of your proposed research using the following guidelines:

Introduction (for resubmissions only):
Use this section only for a revised, resubmitted application. In a revised application, there must be substantial changes in the content of the application. This section must summarize the substantial additions, deletions, and changes. The Introduction must also include responses to the criticisms and issues raised by the reviewers of your previous application. The changes in the Research Plan must be clearly marked by appropriate bracketing, indenting, or changing of typography, unless changes are so extensive as to include most of the text. This exception should be explained in the Introduction. Do not indicate changes by colored text or shading. Work accomplished since the original application was submitted should be included in the "Progress Report/Preliminary Results" section.

PAGE LIMIT: two pages (This can be in addition to the 12 page limit.) If you exceed two pages, your application may be rejected.

Research plan:
Include all text, figures, and data tables related to the research plan in this section. The individual subsections below may be any length as long as the total for the entire research plan does not exceed the PAGE LIMIT of twelve pages:

- **Specific Aims** - Provide a concise statement of each objective of the proposed research project.
- **Background** - Provide a brief summary of the background for this project, including existing knowledge in the area and long-term goals of your research.
- **Progress Report/Preliminary Results** - A progress report is required for renewal applications. For new applications, use this section to report the principal investigator’s preliminary studies pertinent to the application. Include any information that will help
establish the experience and competence of the investigator’s to pursue the proposed research.

- **Experimental Design and Methods** - Describe the design of experiments and the procedures used to undertake the proposed studies. Where appropriate, include possible outcomes, pitfalls, and alternative plans.

- **Relevance to the National MS Society’s Research Priority Areas** - Identify which of the National MS Society’s five research funding priority areas your proposed project addresses, how its results may contribute to advancing in the priority area(s), and its potential impact on understanding, treating or ending multiple sclerosis.

- **Facilities Available** – Describe the facilities available for the conduct of the proposed research, and list major items of equipment that are available for use in the project. FACILITIES PAGE LIMIT: one page—within the 12 page narrative limit.

**References and Literature cited:**
To facilitate the review of your application, give the full title and bibliographic reference for all work cited in your application. **Please note that the 12-page limit for the narrative does not include the references, i.e., the references can go beyond the 12-page limit.**

**4.12. Materials Submitted with Application**

This is the section where appendix materials submitted with your application are uploaded. Appendix materials must be in PDF format and can be uploaded as multiple PDF files. **Do not use this section to circumvent the page limits of the narrative section; putting information here that belongs in the narrative may result in a more negative assessment by the peer review panel.**

Items commonly included in the appendix are:

- **Publications**—Reprints, preprints, manuscripts, etc. that are relevant to the proposed project can be included as part of the appendix.

- **Clinical Trial Protocols**—In some cases, a proposal submitted to the Society may involve a study that is an add-on to a clinical trial that has been funded by another agency. Although the clinical trial itself is not the focus of the proposal, it is essential for the peer-review panel to have detailed information about the trial. If the above scenario describes your proposal, you must include a copy of the clinical trial protocol as part of the appendix.

- **Other Materials**—If your proposed study utilizes questionnaires or other types of printed assessment instruments, you may want to include these as part of the appendix. Many other types of materials could potentially be included in the appendix. However, keep in mind that reviewers have a great deal of material to review and so you should choose your appended materials carefully.

**4.13. Budget**

The Society requires a detailed budget for all years of the proposed project. The budget must be prepared using our online facility. The budget module is divided into sections such as “Personnel,” “Equipment,” “Supplies,” etc. To add a line item to the budget, click on the green "+" button to open the form. The system will calculate the total budget per
year after each line item has been added to the application. Please note, it is recommended that you save the application after each budget section has been completed to expedite the calculation process. The budget module automatically calculates direct costs, indirect costs, and totals. Please note that you cannot edit the indirect cost section. This section is calculated by the system based on your entries and is not editable by applicants.

Note: Please review the NMSS Policies and Procedures for information regarding General Categories of Expenditures.

Sub-Contractor Budget—The online system also includes the ability to calculate subcontract budgets and integrate them into the main budget. Like the overall budget, any subcontractor budgets should provide budget detail for all years of the project. The Society will pay up to 10% indirect costs on subcontracts to US institutions, with the usual exclusions for equipment and patient costs. The subcontractor budget should include indirect costs, if applicable. However in the main project budget, only the direct costs for the subcontract should be included since the Society will not pay indirect costs twice on the subcontract amount.

The budget justification can be typed directly into the text box online or copy and pasted into the text box from a word processor.

Sub-Contractor Budget Justification—The budget justification can be typed directly into the text box online or copy and pasted into the text box from a word processor.
5. **SUBMISSION OF YOUR PROPOSAL**

Once you are satisfied with your proposal and all sections are marked as complete, you can click on the **Submit** button. This will lock your proposal from further editing and move it to the **Authorization** step that is completed by the Primary Signatory.

5.1. **Authorization (Institutional Approval)**

Submitted applications are first routed to the Institutional or Primary Signatory identified in the application for approval and final submission to the Society. Once you have submitted your application, a system message will be sent via e-mail to the Institutional Signatory stating that an application is pending authorization. The Institutional Signatory must log on to the system, open the application, and approve or authorize the application before it is submitted to the Society. This **must** be completed **prior** to 5:00 PM Eastern Time on the date of the deadline.

Please note, the Institutional Signatory must be registered with the system and must be the individual designated by you in the **Institutional Official** section of the application.

5.2. **Confirmation**

Once your Institutional Signatory has submitted the application, the Principle Investigator and Institutional Signatory will both receive an automated email confirming receipt of your application by the Society.
6. **APPLICATION CHECKLIST**

To assist you in verifying that you have completed all steps in the application process, here is a checklist that you can use once you are ready to submit your proposal.

- Have you completed all required items in the **Project Information** section?
- Have you completed all required items in the **Institutional Official** section?
- Have you completed all required items in the **Human Subjects and/or Vertebrate Animals** section?
- If applicable, have you uploaded all of the **Letters** of support/collaboration/approval?
- Have you completed the **Lay Language Summary**?
- Have you completed the **Scientific Summary**?
- Have you listed all professional staff in the **Project Staff** section?
- Have you uploaded **Biographical Sketches** for all professional staff on the project?
- Have you uploaded **Other Support** for all professional staff on the project?
- Have you uploaded your completed **Proposal Narrative**?
- If applicable, have you uploaded all of the **Materials** in the appendix?
- Have you completed the **Budget** for all years of the proposed project?
- Have you completed the **Budget Justification** for all years of the proposed project?
- If applicable, have you complete the **Subcontract Budget(s)** for any subcontracts?
- If applicable, have you uploaded a **Budget Justification** for any subcontracts?
- Has the Institutional Signatory of your organization **Authorized** submission of your application?
7. **HELP IS AVAILABLE**

Basic questions about word processing functions such as copying and pasting, pagination, etc. and questions concerning PDF files should be referred to your organization’s IT department or a colleague.

If you have any questions concerning the online application process such as using the online screens, file uploads and downloads; questions about National Multiple Sclerosis Society policy or the content of your proposal, please contact one of the following members of the Research Programs team:

**Contacts:**

Phyllis Motta          (212) 476-0518  phyllis.motta@nmss.org  
Caryn Knutsen          (212) 476-0437  caryn.knutsen@nmss.org
