Friends,

Welcome to the 5th annual MS Awareness Week Silent Auction! The funds we will raise this evening will go toward the local services and critical research to change lives and end MS forever.

I’d like to give a warm thanks to the volunteer committee who work year-round to bring together local items for this wonderful event. Our deepest appreciation goes out to the community partners, shops, restaurants and other businesses who donated items for the auction. We also would like to thank our hosts at Bogey Grille for their generosity and hospitality.

Multiple sclerosis is a chronic disease of the central nervous system, for which there is no cure. MS disrupts the flow of information within the brain and between the brain and the body. Most people with MS are diagnosed between the ages of 20 and 50, with at least two to three times more women than men being diagnosed with the disease. MS affects more than 2.3 million worldwide. Thanks to growing collaboration around the world, however, there are improved treatments leading to enhanced quality of life for people living with MS.

Last year alone, the National Multiple Sclerosis Society invested $54 million to advance more than 380 research projects around the world to stop MS in its tracks, restore what has been lost and end MS forever. Through its comprehensive network of services, the Society also helped more than one million people affected by MS connect to the people, information and resources needed to live their best lives.

Beginning with MS Awareness Week March 7 - 13, I encourage you join me and share the solutions and experiences they’ve uncovered to live their best lives with multiple sclerosis. It’s these solutions and shared experiences that inspire others and help everyone affected by MS become more powerful than the challenges of this disease.

It’s easy to get involved and change the world for people living with MS. You can learn more by visiting www.nationalMSsociety.org. Thanks for attending tonight! Together we are changing the world for people affected by MS.

Warmly,

Corrina Madrid
President, North Florida Chapter
National MS Society
(904) 332-6889, corrina.madrid@nmss.org
