Why I Chose to Participate: This year I've joined forces with the National Multiple Sclerosis Society because I want to do something for the people who have been diagnosed. Having multiple sclerosis means: that you may not be able to walk when you wake up, that you may suddenly have impaired vision, or that your memory will fail you for no apparent reason. The symptoms of MS are different and devastating for everyone - the only certainty is that it will affect another person every hour of every day, most between the ages of 20 and 50.

Why You Should Join Me: The National Multiple Sclerosis Society will use funds collected from this event to support cutting edge research projects, as well as provide programs which address the needs of people living with MS today. The Greater Delaware Valley Chapter serves more than 13,000 people with MS. Your support will help get closer to the hour when no one will have to hear the words, "You have MS."
