As individuals, our contributions are many. Together, we’re keeping a shared promise.
The National MS Society is a collective of passionate individuals who want to do something about MS now—to move together toward a world free of this unpredictable disease. Multiple sclerosis destroys connection. Connection destroys MS.

Last year the Society embraced the Strategic Response: 2011–15, a bold and urgent five-year plan reflecting the hopes, concerns and expectations of people with MS. We are on the ground and running. Not only were significant strides made in 2012, we increased our focus on:

• better addressing the needs of everyone living with MS, including people severely impacted by the disease
• increasing the number of MS researchers and clinicians
• supporting more research than ever before, including seeking solutions regarding progressive MS.

2012 was a year of change and growth for the Southern California & Nevada Chapter. Through the extraordinary commitment of staff and Trustees, significant progress has been made by right-sizing the Chapter, stabilizing revenue streams, aggressively reducing expenses, and identifying mid- and long-term fundraising strategies to change the Chapter’s financial trajectory. This has enabled the Chapter to close of the fiscal year on September 30, 2012 with a $300,000 surplus. Most importantly, throughout 2012, we have maintained all of the high quality programs and services for which our Chapter is known.

“A Shared Promise” describes so many important things about the MS movement, about all of us individually and collectively -- our attitude, who we are and what we stand for, and what we’re really all about: doing what it takes to achieve a world free of MS. As individuals, our contributions are many. Together, we are keeping A Shared Promise.

Sincerely,
Susan Bradley
Chapter President

LOCALLY, THE SOUTHERN CALIFORNIA & NEVADA CHAPTER PROVIDES PROGRAMS AND SERVICES DESIGNED TO HELP THE 19,000 PEOPLE LIVING WITH MULTIPLE SCLEROSIS AND THEIR FAMILIES IN OUR LOCAL COMMUNITIES.

MS RESEARCH

We are a driving force of MS research & treatment to STOP disease progression, RESTORE function, and END MS forever.

The last year saw exciting research progress, with unprecedented opportunities on the horizon and more scientists than ever working on important questions. Several emerging therapies continued to advance through the pipeline, including several large-scale clinical trials focusing on progressive MS. Progress was also made toward the crucial goals of finding ways to restore function and improving quality of life, and toward addressing specific MS symptoms through exercise, meditation, rehabilitation and medications. And our understanding of factors that influence whether a person develops MS deepened this year, bringing us closer to finding ways to prevent the disease.

The National MS Society continues to propel research forward with a comprehensive research strategy. This year we provided nearly $40 million to support over 325 new and ongoing projects, including everything from discovery research to the Society's commercial drug development efforts through Fast Forward®.

New projects launched include clinical trials testing novel approaches to protecting the nervous system from MS damage; studies of adult stem cells and natural molecules that may stimulate repair of the nervous system to restore function; research on better treatments for symptoms; and studies on viruses and intestinal bacteria that may be involved in triggering immune attacks in people with MS, leading to clues to ending MS through prevention.

Here is just a small sample of many important, potentially high-impact research results that occurred this year aimed at the Society’s goals of stopping MS, restoring what’s been lost, and ending MS forever.

STOP: New therapies showing positive results — Several late-stage, phase III clinical trials in relapsing MS are making their way toward seeking marketing approval. These include oral teriflunomide, oral BG-12, and intravenous alemtuzumab.

RESTORE: Research in many types of stem cells continued to progress — Cleveland investigators launched a clinical trial testing the safety of transplanting a patient’s own mesenchymal stem cells (derived from bone marrow) to treat relapsing MS.

END: The International MS Genetics Consortium and collaborators identified 29 new genetic variants associated with MS, and confirmed 23 others previously associated with the disease, verifying a major role for the immune system in the development of MS. The study was funded by the Wellcome Trust, the National Institutes of Health, the National MS Society and many other organizations. The results are now to be confirmed and expanded in an independent, second large-scale set of cases with a research grant from the National MS Society.
LOCAL RESEARCH GRANTS

In 2012, over $9.5 million of National MS Society funded research took place at institutions in Southern California.

**Brentwood Biomedical Research Institute**

- Rashed Nagra Ph.D $1,268,602 Neurospecimen Bank

**Cedars-Sinai Medical Center**

- Nancy Sicotte, M.D. $506,341 Depression in MS
- Nancy Sicotte, M.D. $158,098 Estriol and Cognition

**UCLA**

- Anthony Campagnoni Ph.D $471,689 Myelin Repair
- Eric Cheng, M.D. $109,616 Cost-Sharing Impact
- Barbara Gissler, M.D. $560,819 Rehabilitation/Cognition
- Pablo Paez, Ph.D. $44,000 Cell Biology
- Pablo Paez, Ph.D. $471,291 Myelination
- Yossan-Var Tan Ph.D. $564,824 Controlling Immune Attacks
- Seema Tiwari-Woodruff, Ph.D. $164,559 Nervous System Repair
- Rhonda Voskuhl M.D. $3,693,807 Copaxone + Estriol
- Rhonda Voskuhl M.D $473,550 Brain Atrophy
- Rhonda Voskuhl M.D. $323,160 Estrogens and Neuroprotection
- James Waschek Ph.D. $556,864 Immunomodulatory Actions

**University of Southern California**

- William Stohl, M.D., Ph.D. $218,329 Stopping MS
PROGRAMS, SERVICES & ADVOCACY

We develop, deliver, and leverage resources to enhance care for people with MS and quality of life for all those affected by the disease. We are also activists. Here are some notable highlights:

- **17,300 subscribed to the Chapter’s MS Connection** magazine keeping people linked to the latest information on MS research, treatments, self-advocacy and strategies addressing quality of life issues for all affected by MS. Unique to this Chapter is **Conexion Hispana**, a bilingual Spanish newsletter published for **900 Latinos with MS** Chapterwide.

- **Chapter-sponsored in-person and teleconference classes helped 1,054** gain a better understanding about a myriad of topics from treating MS and its symptoms to employment and legal issues.

- **Our MS Information Resource Center helped 4,519 callers** navigate the challenges of life with MS, connecting them to information, literature and valuable resources in the community. In addition, Chapter staff provided more in-depth consultation and **tailored support to 1,400 individuals**.

- **The Chapter helped 1,049 patients find the medical care they needed** by partnering with leading centers for MS care; providing case management; funding medical interpretation services; offering referrals and financial assistance for physical, occupational and speech therapy sessions; and funding physician consultations for those with the greatest need.

- Accessing quality MS care can be difficult wherever you live. But MS-related health care resources fall short the further someone is from an urban center. This year, the Chapter **reached out to 2,000 individuals in our rural communities** across California and Nevada to identify gaps in care.

- **We offered a wide array of customized health & wellness programs and exercise classes** that encourage positive lifestyle choices, improve wellness and independence. These life-changing programs **helped 365 people optimize function, overcome challenges and feel more confident** in their ability to manage life with MS. A signature to the work of the Chapter is **Living Well with MS**, CogniFitness, Optimal Living with MS, and the newest addition **Free From Falls: A Comprehensive Fall Prevention Program for People with MS**.

- **Our emotional support programs & services helped over 650 people** cope with the emotional challenges MS can bring by connecting people to others through one-on-one peer support, 42 community-based groups, and professional counseling services.
• As MS progresses, the Chapter fosters quality of life across the continuum of the disease providing **MS-specific programming to 184 people in partnering skilled nursing facilities and Chapter-supported MS Adult Day Centers**, including The Marilyn Hilton MS Achievement Center at UCLA (MSAC) and the Eric Small Center for Optimal Living with MS at Rancho Los Amigos.

• We provided over **$270,000** in direct financial assistance to **500 people** addressing the greatest needs, including emergency rent, utilities, transportation, durable medical equipment, home modification, care management and more. In addition to its own commitments, the Chapter leveraged an additional **$25,661** in community resources and an additional **$3,637** from the Society’s Stepping Stones assistance program to support individuals and families and fill the gap when personal resources fall short.

• We focused on providing emotional support and respite to family members, fostered connection to kids with MS, provided **financial assistance, scholarships and hosted fun family-centered events for 634 people** in the Chapter.

• **MS Activists advocated for passage of state legislation curbing out of pocket costs for MS therapies** and other prescription drugs. They collected personal stories of community members and shared them during in-person meetings with key legislators coupled with data illustrating the ill effects of high out of pocket costs.

• **Secured an additional $3.8 million in MS research funding** through the Congressionally Directed Medical Research Programs, bringing our total through this funding source to more than **$20 million**, since MS was first listed as eligible for funding in Fiscal Year 2008.

• At the federal level, **secured nearly $2.5 million for the Lifespan Respite Care Program** that supports family caregivers and collaborated with disability organization partners to protect Medicaid/Medi-cal from proposed cuts and harmful structural changes.

• **Added members to the bipartisan Congressional MS Caucus**, bringing the total number to 130 U.S. Representatives and 26 U.S. Senators.
We develop & align business and financial resources to achieve breakthrough results. We will raise $215 million by the end of 2015 to be used to create a world free of MS. The Society’s donors and fundraisers gave generously to support Society programs and services, and research to find the cause and cure for MS.

- Rallied over 19,000 people with MS, their friends, family and supporters at 15 Walk MS sites in Southern California and Nevada and raised $2.5 million.

- Honored Jeff Robinov, President, Warner Bros. Pictures Group and MS ambassador and presented the Dorothy Corwin Spirit of Life Award to Melissa Sherak Glasser at the 38th annual Dinner of Champions in Los Angeles and raised $2.1 million.

- Together, the Bike MS Coastal Challenge in Ventura and Bike Vegas Challenge raised $1.3 million.

- Collaborated with Pacific South Coast Chapter to support 227 participants who walked 3 days and 50 miles from Carlsbad to San Diego in Challenge Walk MS and raised $330,000 for our Chapter.

- Inducted three exceptional Chapter volunteers into the National MS Society’s prestigious Hall of Fame class of 2012. Trustees Barry Engelman and his daughter Traci Engelman were honored for their fundraising prowess. Dr. Wendy Gilmore was recognized for his efforts as a volunteer scientific researcher.

- Challenged Golden Circle donors to raise $500,000 between October 1 and December 31, 2011 to ensure a $500,000 match from the Kenrose Kitchen Table Foundation, the Steve and Caroline Kaufer Family, and the Tuffli Family Foundation. Golden Circle donors contributed over $700,000 toward this Year End Challenge.

- Raised over $3.2 million in traditional giving campaigns, including Golden Circle major gifts, planned giving and foundation support.
2012 FINANCIALS

Total Revenue (Less Direct Benefit to Donor) $9,504,199

GOLDEN CIRCLE

Golden Circle is committed to the cause, care, and cure for MS, recognizing annual gifts of $1,000 or more. Created in 1993 as the chapter's elite annual gift campaign, Golden Circle has benefited from millions of dollars contributed by individuals, foundations and corporations which accelerate the development of more effective MS treatments, search for the cause and cure of the disease, and expand the chapter’s local programming for people with MS.
