Statewide Assistive Technology Programs (ATP’s)
ATP’s are federally funded programs in almost every U.S. state which offer:
  o Information about what devices and services are available and where to obtain them
  o Device loan and demonstration, and in some states, borrowing programs to ‘try out’ devices
  o Funding resources for purchasing or acquiring assistive technology
  o Device exchange and recycling programs that provide individuals with used equipment at little to no cost

Statewide Alternative Financing Program
(AFPs) are programs in almost every U.S. state which:
  o can help individuals living with a disability get affordable financial loans to purchase assistive technology.
  o Typical assistive technology purchased through this funding include modified vehicles, home modifications, vision/hearing aids, and adapted computers.

For further information about assistive devices for persons with MS, including mobility devices, you may wish to view the following pages of our website:
