Society**

<Name of Company> Joins the Movement to help create a world free of MS

<date>

<Company> is partnering with the National Multiple Sclerosis Society to help create a world free of MS, thanks to the leadership of <Team Captain>, who is serving as the National Team Captain for <Company's> <Event Names i.e. Bike MS, Walk MS, Challenge Walk MS, Muckfest MS> team.

Multiple sclerosis is an unpredictable, often disabling disease of the central nervous system that affects more than 2.3 million worldwide. Symptoms vary from person to person and range from numbness and tingling, to walking difficulties, fatigue, dizziness, pain, depression, blindness and paralysis. The Society mobilizes people and resources so that everyone affected by multiple sclerosis can live their best lives as we stop MS in its tracks, restore what has been lost and end MS forever.

Last year alone, through its comprehensive nationwide network of services, the Society devoted more than \$100 million to connect approximately one million people affected by MS to the connections, information and resources they need. To move closer to a world free of MS, the Society also invested \$42 million to support more than 380 new and ongoing research projects around the world.

This work would not be possible without the support of teams like ours. More than <number> <company> employees, family members and friends across the country participated in <event names> nationwide during <year> and raised more than <\$>. We hope to make this year even more successful, and we invite you to be part of this incredible mission.

With Bike MS events, Walk MS events, Challenge Walks and MuckFest MS events – there is a place for you to get involved, no matter where you are! Whether you would like to ride, walk or volunteer – you can power life-changing breakthroughs for those affected by MS.

For more information about <Company's> teams nationwide or to find or join a team in your area, please contact <National Team Captain> at <email address>. To learn more about multiple sclerosis and the work of the National MS Society, please visit nationalMSSociety.org.
