The Bridges at Rancho Santa Fe

**2019 SPONSORSHIP
PROPOSAL**

25TH ANNUAL MS GOLF INVITATIONAL

The 25th Annual MS Golf Invitational will be hosted for the first time at The Bridges at Rancho Santa Fe on Monday, May 20, 2019. Benefiting the National Multiple Sclerosis Society, this esteemed tournament is a golf enthusiast's favorite as it is held at the exclusive Bridges at Rancho Santa Fe and is only open to 120 golfers. Participants enjoy fabulous tee prizes, lunch, fun contests, hosted reception, gourmet dinner, live auction and much more. Become a sponsor of this premier Invitational and support a world free of MS today. To learn more about the event, visit www.golfMS.org.

PREMIER AUDIENCE

The MS Golf Invitational attracts a high-level audience of which 90% are males and 67% are in attendance on a corporate capacity. This audience believes highly in giving back to corporations who support the San Diego Community and non-profits such as the National MS Society.

JOIN THE MOVEMENT

Partnerships between non-profits and corporations such as yours are mutually beneficial and necessary to supporting the community. Won't you join us by taking this opportunity to provide your company positive exposure, while contributing to a worthy cause? Join the movement in a world free of MS and other corporations who have supported this event in the past including Kaiser Permanente, Celgene, San Diego Business Journal, Sycuan Casino, Lexus San Diego, and many more.

WE ARE PEOPLE WHO WANT TO DO SOMETHING ABOUT MS NOW.

About the National MS Society

The Society mobilizes people and resources so that everyone affected by multiple sclerosis can live their best lives as we stop MS in its tracks, restore what has been lost and end MS forever. Last year alone, through our comprehensive nationwide network of services, the Society devoted more than \$100 million to connect approximately one million people affected by MS to the connections, information and resources they need. To move closer to a world free of MS, the Society also invested \$40 million to support more than 360 new and ongoing research projects around the world. We are united in our collective power to do something about MS now and end this disease forever. Learn more at nationalMSSociety.org.

About Multiple Sclerosis

Multiple sclerosis is an unpredictable, often disabling disease of the central nervous system that disrupts the flow of information within the brain, and between the brain and body.

Symptoms range from numbness and tingling to blindness and paralysis. The progress, severity and specific symptoms of MS in any one person cannot yet be predicted, but advances in research and treatment are leading to better understanding and moving us closer to a world free of MS. Most people with MS are diagnosed between the ages of 20 and 50, with at least two to three times more women than men being diagnosed with the disease. MS affects more than 2.3 million worldwide.
